EXCEL DASHBOARD PROJECT

Telecaller Employee Performance Dashboard

A Microsoft Excel dashboard analysing telecaller NOP conversion, volume, inactivity and new-joiner activation across three reporting leads.

Prepared for Sales Review • 25 Aug – 13 Nov 2026

Presented by Asrarul Haque

Objective & Purpose

Project Objective

This dashboard analyses the performance of 11 telecallers under three reporting leads. It tracks NOP conversions, Wat volume, inactivity and new-joiner activation, so leadership can quickly spot top performers, defaulters and onboarding gaps.

Who benefits

Reporting Leads
Track telecaller-wise NOPs and volume

Sales Leadership
Monitor volume share, deal size and monthly trend

Training / HR
Plan support for new and inactive telecallers

SCOPE

11 Telecallers	3 Reporting Leads
17 NOPs Analysed	81 Days Tracked

Why This Dashboard Was Needed

NOP dates, volumes and pickup dates sit in many columns of one roster sheet, which makes review slow. One central dashboard answers the key questions instantly.

1

Track Total Volume

Monitor combined Wat volume and number of NOPs

2

Compare Reporting Leads

See volume share and rank of each lead's team

3

Find Top Telecallers

Identify callers who convert and stay active

4

Analyse Monthly Trend

Spot the peak month and recent pace

5

Flag Inactivity

Catch callers with 0 NOPs or 30+ zero days

6

Track NOP Progression

Measure progress from 1st to 4th NOP

Dataset & Data Cleaning

Dataset Columns

- Login ID
- Name
- Date of Joining (DOJ)
- 1st / 2nd Reporting Lead
- Asst. Manager / Manager
- Team Head
- MIS Date
- Last Pickup Date
- Last NOP Date (base)
- 1st–4th NOP Date
- 1st–4th NOP Wat (₹)
- Total NOP
- Total NOP Wat
- Zero Days (inactivity)

Data Cleaning Steps

- Blank NOP dates and amounts treated as “no NOP yet”, not as errors
- Totals verified: 17 NOPs and ₹1,910,000 tie to the roster
- Zero Days rechecked as MIS date (13 Nov) minus last pickup date
- Telecallers grouped by their 1st Reporting Lead
- Day gaps calculated between 1st, 2nd, 3rd and 4th NOP
- Names cleaned for display (system “Z” prefix removed)

How Metrics Are Defined

NOP

One converted unit (deal). Tracked for the 1st, 2nd, 3rd and 4th NOP of each caller.

Wat Volume

Gross value in ₹ of all NOPs a caller has closed (Total Gross, INR).

Zero Days

Days since last pickup, counted up to the MIS date (13 Nov 2026).

Top Telecaller

High NOP with Zero Days of 10 or less.

Defaulter

Zero NOPs, or Zero Days above 30.

Stage Adoption

Callers with at least n NOPs ÷ 11 telecallers on the roster.

All figures come from live Excel formulas (136 on the Analysis_Dashboard sheet), so the dashboard refreshes when the roster changes.

Dashboard KPI Summary

TOTAL TELECALLERS

11

Active roster

TOTAL NOP

17

Units converted

TOTAL WAT VOLUME

₹1,910,000

Total gross (INR)

AVG VOLUME PER NOP

₹112,353

₹1,910,000 ÷ 17 NOPs

AVG INACTIVITY

21.7 days

Average Zero Days

ACTIVE CALLER RATIO

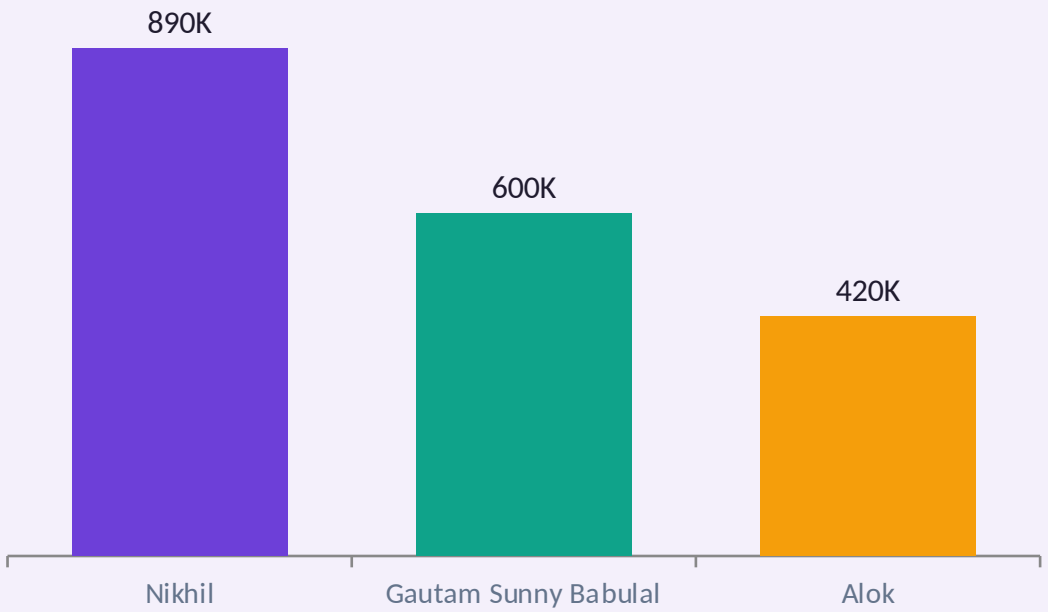

82%

9 of 11 have closed a NOP

Telecaller Leaderboard

#	Telecaller	Reporting Lead	NOPs	Wat Volume (₹)	Zero Days	Status
1	**Owais Ahmad**	Nikhil	4	490,000	0	Top
2	**Aman Singh**	Alok	2	240,000	13	Watch
3	**Kajal**	Gautam Sunny Babulal	2	240,000	14	Watch
4	**Pooja**	Gautam Sunny Babulal	2	240,000	22	Watch
5	**Rekha Kumari**	Alok	2	180,000	19	Watch
6	**Swati Sharma**	Nikhil	2	180,000	27	Watch
7	**Suriayansh**	Gautam Sunny Babulal	1	120,000	0	Top
8	**Asrarul Haque**	Nikhil	1	120,000	7	Top
9	**Rishabh**	Nikhil	1	100,000	49	Defaulter
10	**Prateek Srivastava**	Alok	0	0	44	Defaulter
11	**Yash**	Nikhil	0	0	44	Defaulter
	Total / Average	**11 telecallers**	**17**	**1,910,000**	**21.7**	

Reporting Lead Performance

Nikhil

46.6% share

5 callers • 8 NOPs • 4 of 5 active
Avg ₹111,250 per NOP

Gautam Sunny Babulal

31.4% share

3 callers • 5 NOPs • 3 of 3 active
Avg ₹120,000 per NOP (highest)

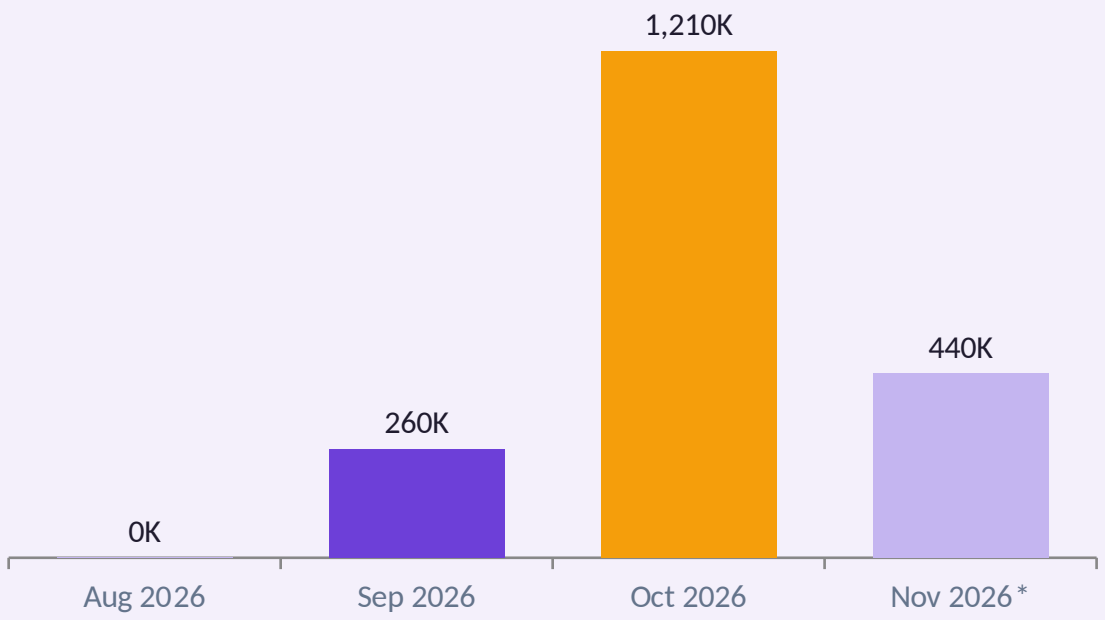

Alok

22.0% share

3 callers • 4 NOPs • 2 of 3 active
Avg ₹105,000 per NOP

Nikhil's team leads on volume, but Owais Ahmad alone gives 55% of it. Gautam's team is the only one with every caller active.

Month-wise Performance

AUGUST 2026

₹0

0 NOPs

Partial: tracking starts 25 Aug

SEPTEMBER 2026

₹260,000

3 NOPs • avg ₹86,667

First full month

OCTOBER 2026

₹1,210,000

11 NOPs • avg ₹110,000

Peak month • MoM +365%

NOVEMBER 2026*

₹440,000

3 NOPs • avg ₹146,667

Partial: data up to 13 Nov

Average NOP value rose every month. November pace is 0.23 NOPs/day vs 0.35 in October — it is a partial month (13 days).

Top Telecallers vs Defaulters

Top Telecallers

NOP closed and Zero Days ≤ 10

Owais Ahmad
4 NOPs • ₹490,000 • 0 zero days

Suriayansh
1 NOP • ₹120,000 • 0 zero days

Asrarul Haque
1 NOP • ₹120,000 • 7 zero days

Defaulter Telecallers

0 NOP or Zero Days > 30

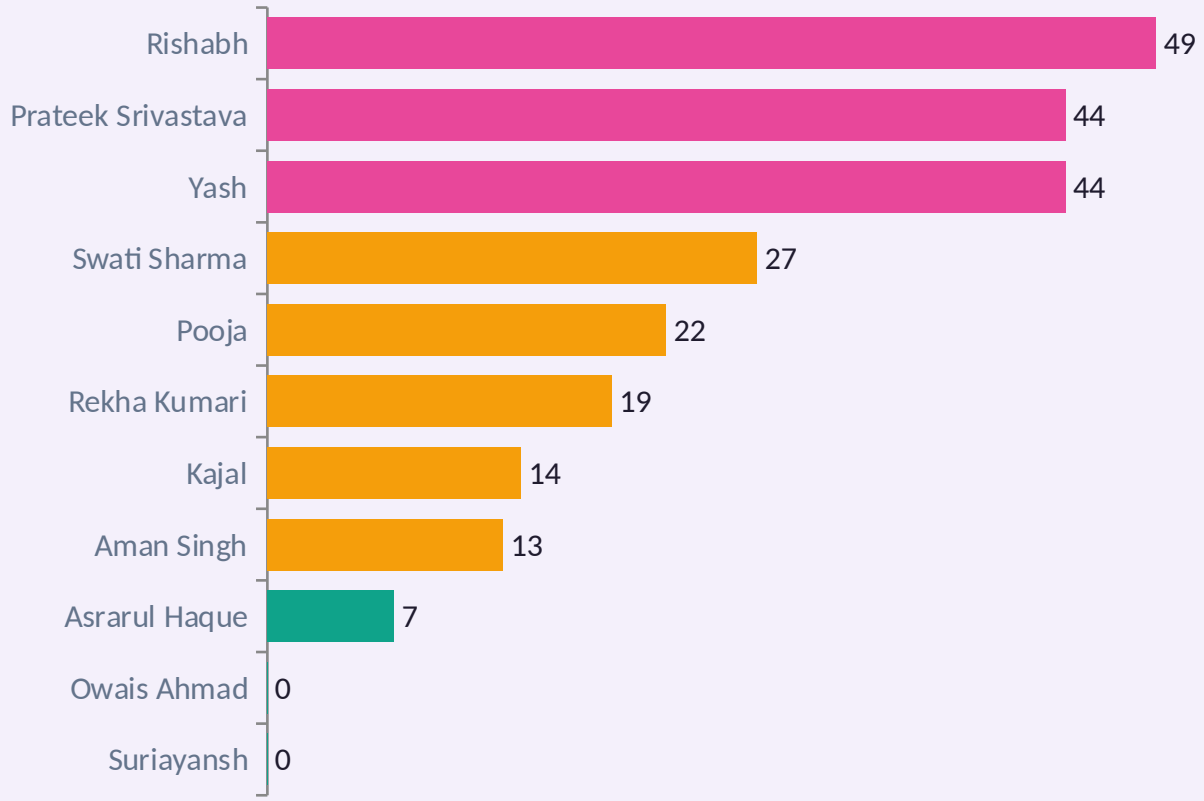

Rishabh
1 NOP • ₹100,000 • 49 zero days

Prateek Srivastava
0 NOPs • joined 30 Sep • 44 zero days

Yash
0 NOPs • joined 30 Sep • 44 zero days

Watch list (11–30 zero days): Swati Sharma 27 • Pooja 22 • Rekha Kumari 19 • Kajal 14 • Aman Singh 13 — each has 2 NOPs but has gone quiet.

Zero Days by Telecaller

10 days or less • 3 callers

Owais Ahmad, Suriayansh, Asrarul Haque

11 to 30 days • 5 callers

Swati Sharma, Pooja, Rekha Kumari, Kajal, Aman Singh

More than 30 days • 3 callers

Rishabh, Prateek Srivastava, Yash

Average inactivity: 21.7 days

NOP Stage Progression

1ST NOP

82%

9 of 11 callers (adoption)
9 deals • avg ₹108,889

2ND NOP

55%

6 of 11 callers (adoption)
6 deals • avg ₹110,000

3RD NOP

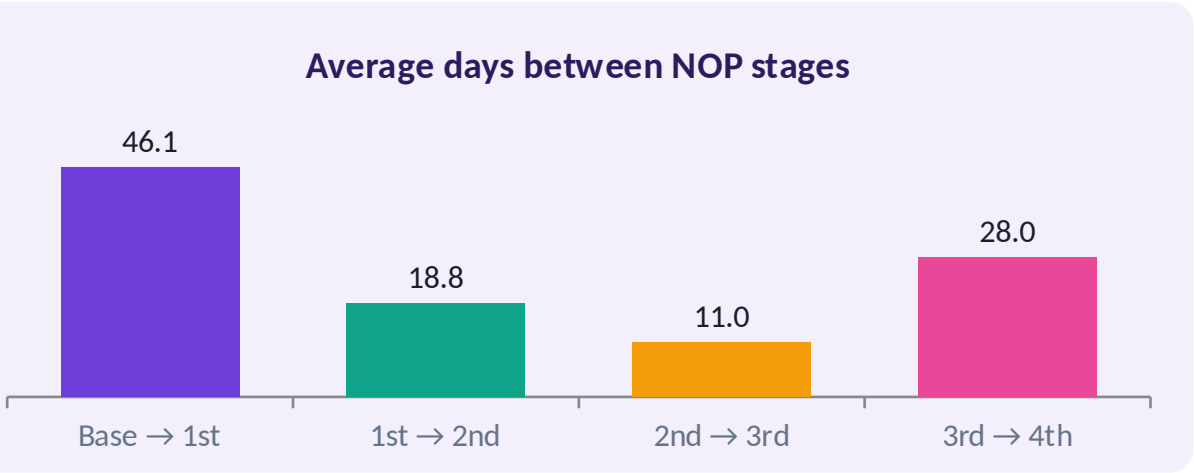

9%

1 of 11 callers (adoption)
1 deal • ₹70,000

4TH NOP

9%

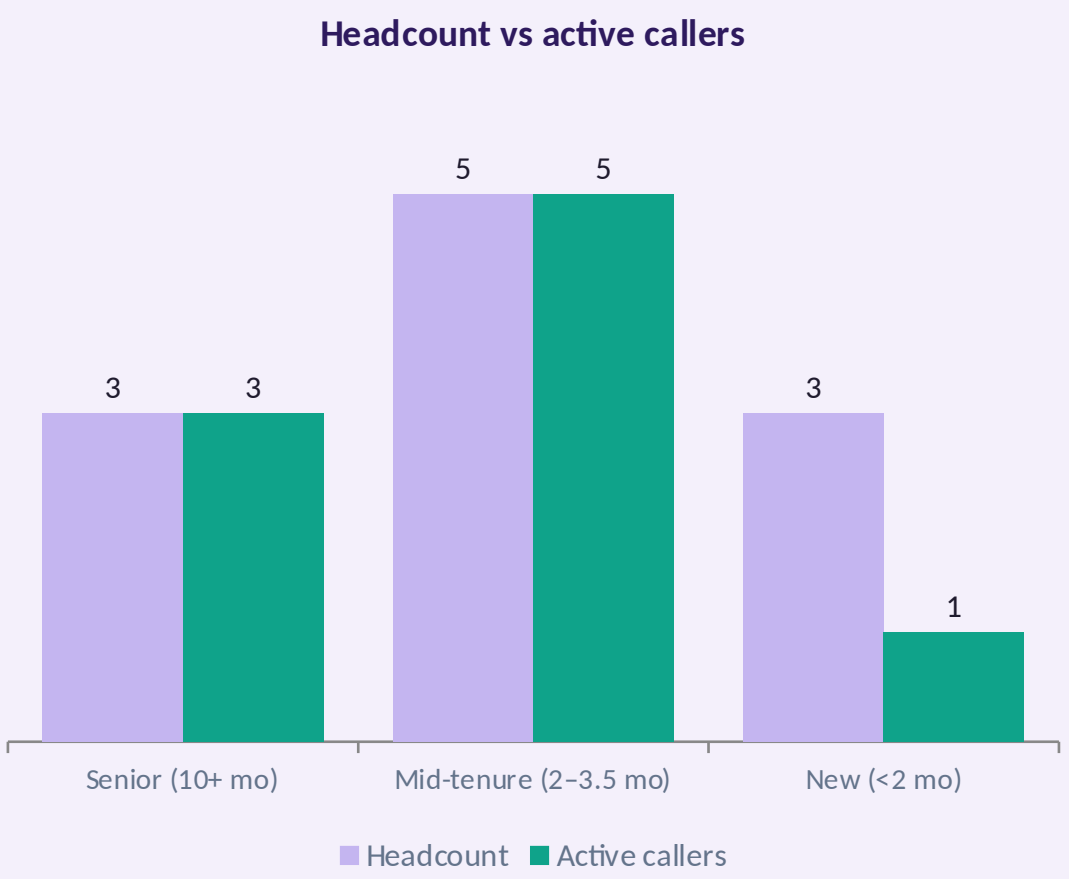

1 of 11 callers (adoption)
1 deal • ₹200,000

What this shows

- Adoption drops from 82% (1st NOP) to 55% (2nd) and 9% (3rd).
- After a first NOP, the 2nd follows in 18.8 days vs 46.1 days to the first.
- 3rd and 4th NOPs come from one caller only — Owais Ahmad.

Tenure Cohort Activation

Senior (10+ months)

3 of 3 active • 6 NOPs
₹600,000 • avg ₹200,000 per caller
Quiet for 19–27 days since last NOP

31.4%
of volume

Mid-tenure (2–3.5 months)

5 of 5 active • 10 NOPs
₹1,190,000 • avg ₹238,000 per caller
Strongest cohort: 10 of 17 NOPs

62.3%
of volume

New joiners (under 2 months)

1 of 3 active • 1 NOP
₹120,000 • avg ₹40,000 per caller
Two 30-Sep joiners still at 0 NOPs

6.3%
of volume

Key Insights

1 ₹19.1 L from 17 NOPs

Average value is ₹112,353 per NOP across 11 telecallers.

2 October is the peak

11 NOPs and ₹1,210,000 — 63% of all volume.

3 Volume is concentrated

Owais Ahmad alone gives 25.7%; the top 4 callers give 63%.

4 Repeat conversion is the gap

Adoption falls 82% → 55% → 9% from 1st to 3rd NOP.

5 Mid-tenure callers carry it

Callers with 2–3.5 months give 62% of volume, all 5 active.

6 Inactivity is spreading

8 of 11 callers are quiet 11+ days; 2 are still at 0 NOPs after 44 days.

Business Recommendations

1 Coach the zero-NOP callers

Prateek Srivastava and Yash: call shadowing and 1-on-1 reviews — 44 days, no NOP.

2 Re-activate the watch list

Five callers with 2 NOPs are 13–27 days quiet. Weekly check-ins aimed at a 3rd NOP.

3 Share Owais's playbook

4 NOPs and ₹490,000 in 80 days. Run a peer session so others repeat his pace.

4 Reduce reliance on one caller

Owais is 55% of Nikhil's team volume. Spread wins across the other four.

5 Set an inactivity alert

Flag any caller above 10 zero days to the reporting lead — don't wait for 30+.

6 Review it every week

Use this dashboard with Nikhil, Alok and Gautam, plus a monthly target check.

Challenges & Future Improvements

Challenges Faced

- Partial months: August (from 25 Aug) and November (to 13 Nov)
- Small sample: only 11 callers, so 3rd/4th NOP is one person
- Blank cells for callers with no NOP yet
- Base date equals joining date for new joiners
- Keeping formula ranges correct as the roster grows

Future Improvements

- Pivot Tables, Pivot Charts and Slicers
- Excel Tables so ranges expand automatically
- Power Query automation for the daily MIS
- Target vs achievement tracking per caller
- Call-level metrics, product-wise analysis, Power BI version

EXCEL DASHBOARD PROJECT

Thank You

This dashboard uses Excel formulas, KPI cards and structured analysis to help sales leadership identify top performers, compare teams and improve new-joiner activation.
