TABLEAU PROJECT 3

Sales & Profit Performance Dashboard

An interactive Tableau dashboard analyzing sales, profitability, and category performance to support data-driven business decisions.

Presented by Asrarul Haque

SECTION 01

Project Overview

Objective

The objective of this project is to analyze sales performance, profitability, product performance, and category-wise business trends. The dashboard provides an interactive view that helps management monitor key business metrics and identify opportunities to improve sales and profit.

TOOL

Tableau

FOCUS

Sales, Profit & Category Trends

OUTPUT

Interactive Dashboard

USERS

Management Team

SECTION 02

Business Problem

Retail companies handle thousands of orders every month. Management needs quick answers to critical business questions — this dashboard answers them through interactive visualizations.

1. What are the total sales and total profit?
2. Which category generates the highest sales?
3. Which sub-category is the most profitable?
4. Which products contribute the most revenue?
5. How do sales change over time?
6. How does discount impact business performance?

SECTION 03

Dataset

The dashboard is built using a retail sales dataset containing the following fields:

- **Order ID**
- **Order Date**
- **Product Name**
- **Category**
- **Sub-Category**
- **Sales**
- **Profit**
- **Quantity**
- **Discount**
- **Customer Name**
- **Region**

SECTION 04

Data Preparation

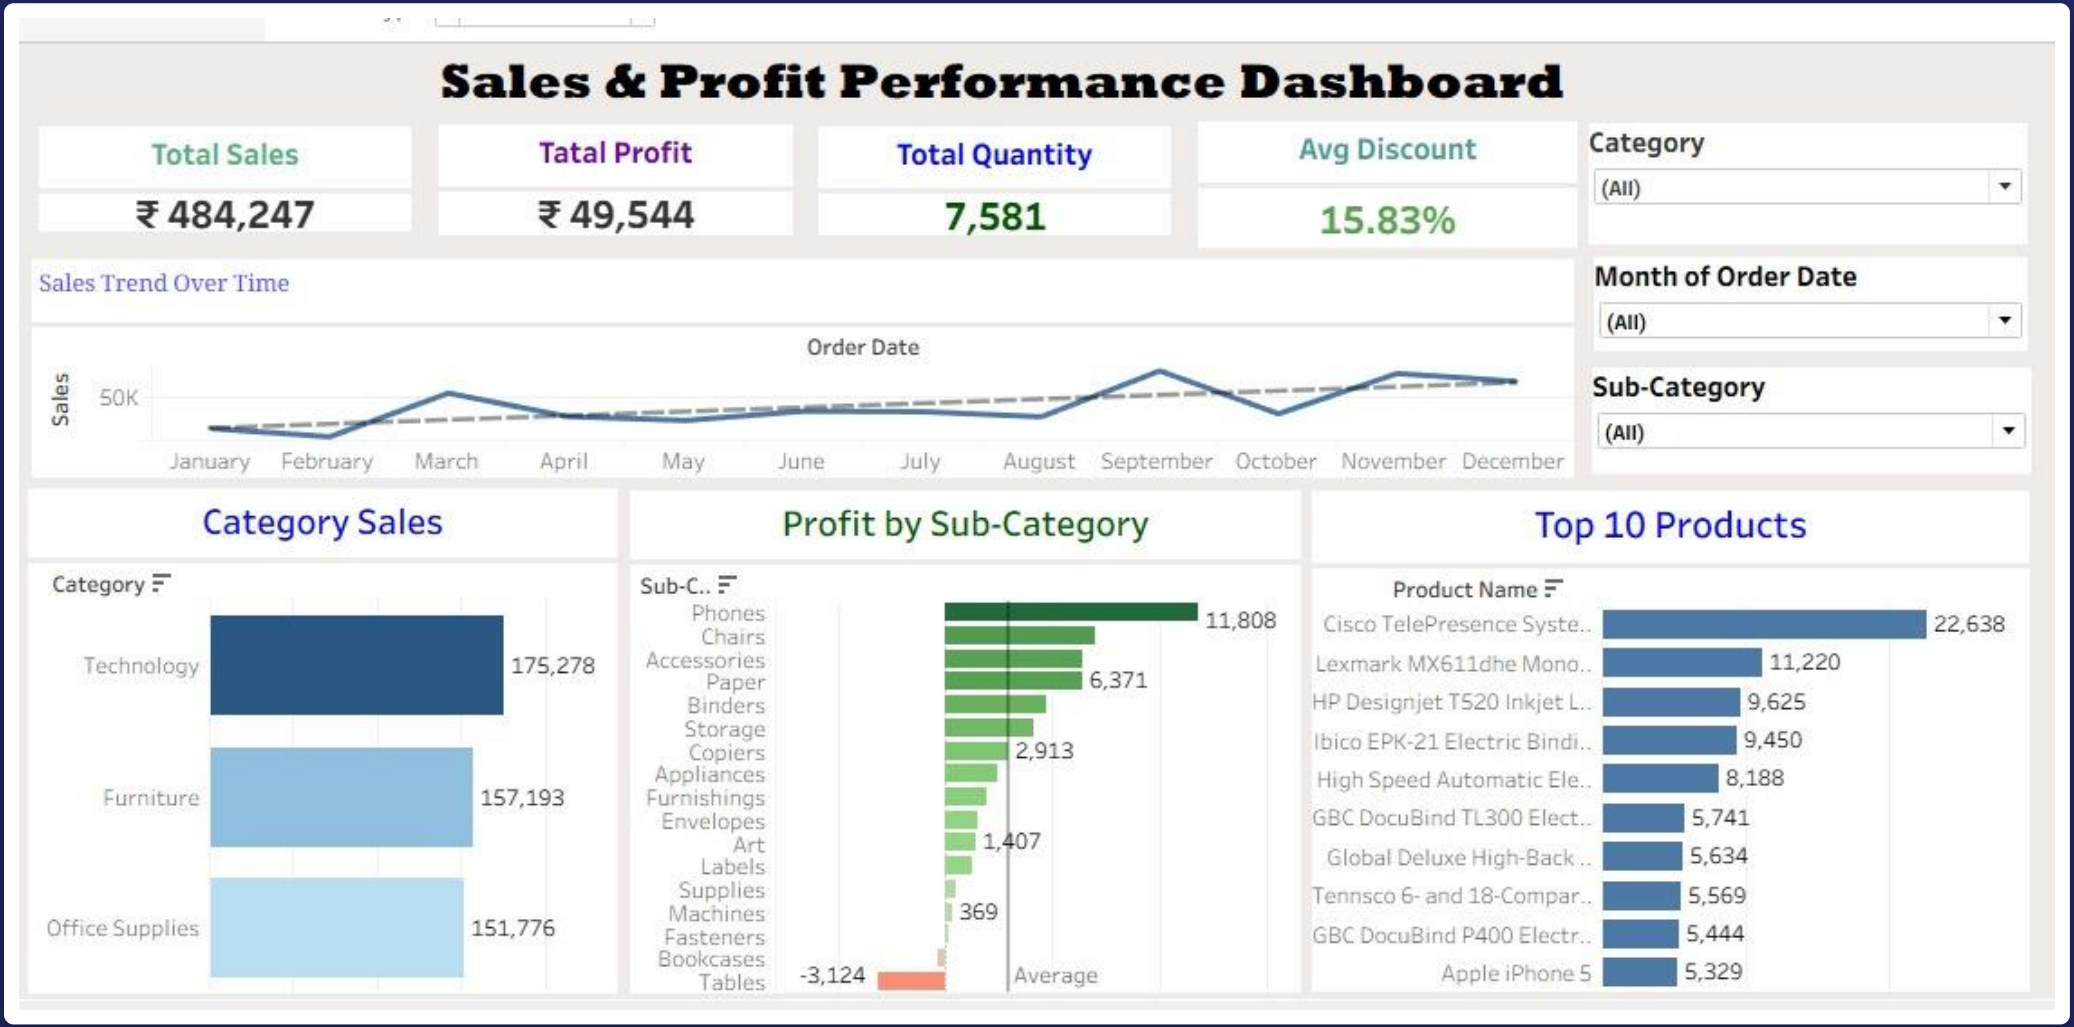

1. Imported the dataset into Tableau
2. Removed duplicate records
3. Checked for null values
4. Corrected data types
5. Standardized category and product names
6. Created calculated fields for KPIs
7. Verified sales, profit, quantity, and discount values

SECTION 05

Tableau Features Used

- Worksheets
- Dashboards
- Calculated Fields
- KPI Cards
- Line Charts
- Bar Charts
- Interactive Filters
- Sorting
- Dashboard Actions
- Highlight Actions

Dashboard Snapshot

SECTION 06

KPI Cards

TOTAL SALES

₹ 484,247

Total sales revenue

TOTAL PROFIT

₹ 49,544

Overall business profit

TOTAL QUANTITY

7,581 Units

Total products sold

AVG. DISCOUNT

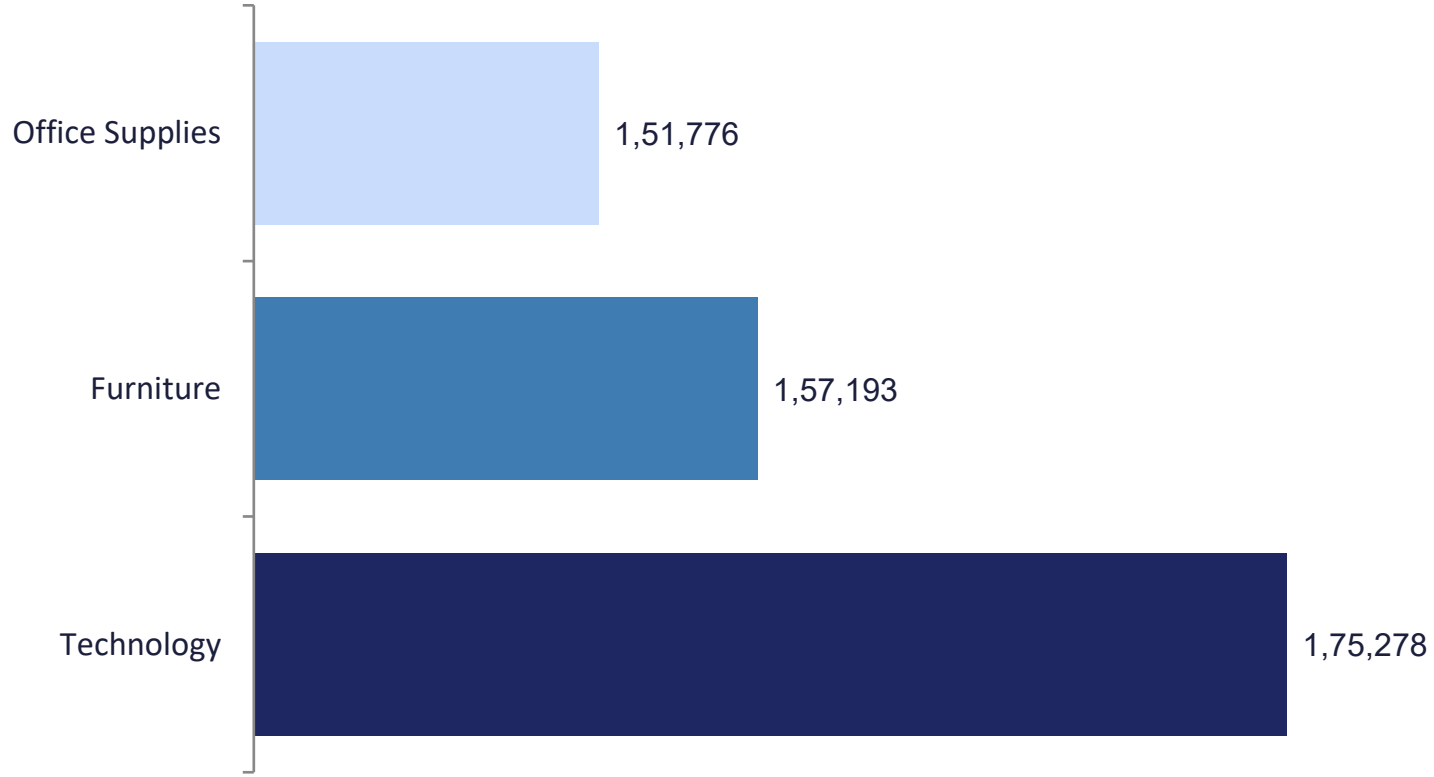

15.83%

Impact on profitability

DASHBOARD VISUALIZATIONS

Category Sales

Compares sales across Technology, Furniture, and Office Supplies to identify the highest revenue-generating category.

BUSINESS VALUE

Identifies the highest revenue-generating category.

Technology leads with ₹175,278 in sales, ahead of Furniture and Office Supplies.

DASHBOARD VISUALIZATIONS

Sales Trend & Profitability

Sales Trend Over Time

Monthly sales performance across the year — helps identify seasonal peaks.

Sales increase noticeably during September and November, suggesting seasonal demand.

Profit by Sub-Category

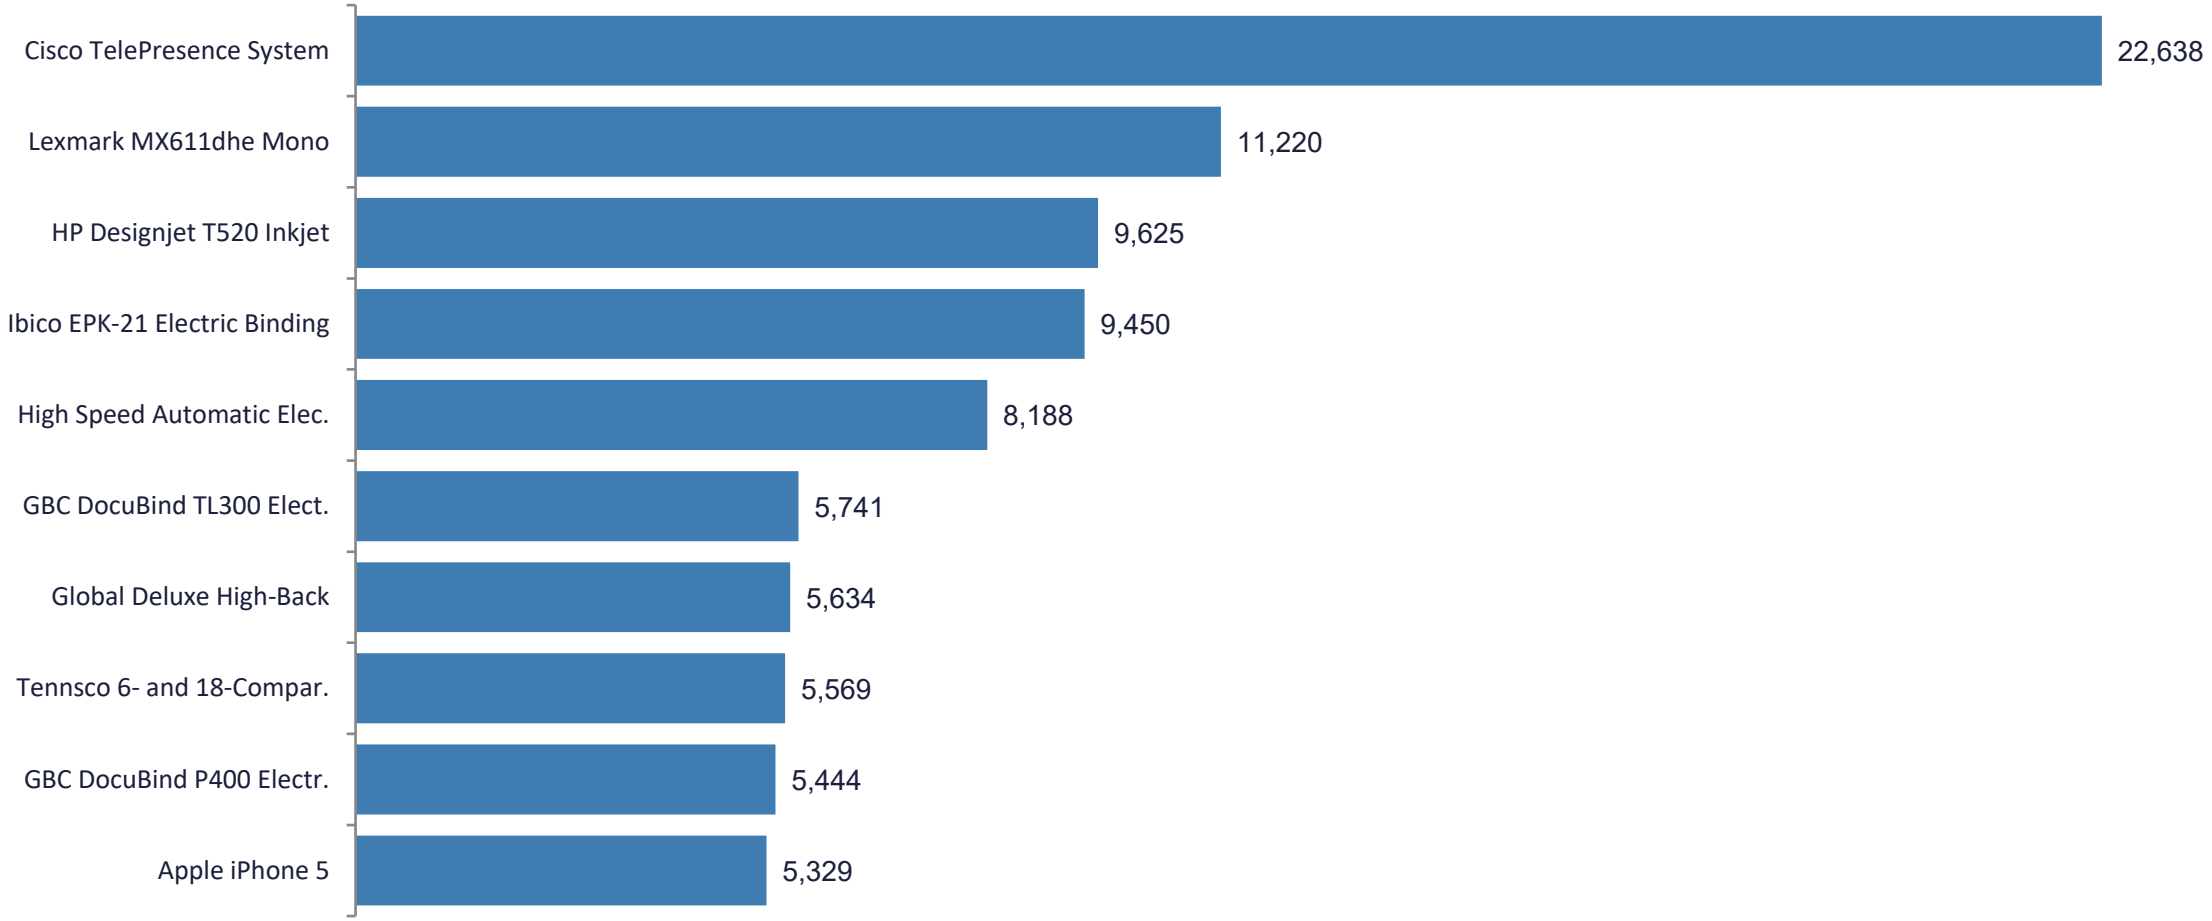

Highlights profitable groups (Phones, Accessories) and loss-making Tables.

Phones leads sub-category profit; Tables shows a loss and needs review.

Top 10 Products

Displays products generating the highest sales — supports inventory planning, pricing strategy, and product promotion.

SECTION 07

Interactive Filters

Category Filter

Analyze data for specific product categories.

Month Filter

View performance for selected months.

Sub-Category Filter

Drill down into individual product groups.

SECTION 08

Key Insights

Total Sales reached ₹484,247.

Total Profit is ₹49,544.

Total Quantity Sold is 7,581 units.

The average discount is 15.83%.

Technology is the highest-selling category.

The Phones sub-category generates the highest profit.

The Tables sub-category shows a loss, indicating an area for review.

Sales increase noticeably during September and November, suggesting seasonal demand.

SECTION 09

Business Recommendations

- ✓ Increase focus on high-performing categories such as Technology.
- ✓ Investigate why the Tables sub-category is loss-making.
- ✓ Optimize discount strategies to improve profit margins.
- ✓ Maintain sufficient inventory for top-selling products.
- ✓ Use seasonal sales trends to plan promotions and stock levels.

SECTION 10

Challenges & Future Scope

CHALLENGES FACED

- Cleaning and preparing retail sales data
- Designing meaningful KPI cards
- Creating calculated fields
- Balancing multiple visualizations on one dashboard
- Ensuring interactive filters worked smoothly

FUTURE IMPROVEMENTS

- Sales Forecasting
- Customer Segmentation
- Profit Margin Analysis
- Regional Sales Dashboard
- Customer Lifetime Value (CLV)
- Geographic Maps
- Drill-down Dashboards
- Dynamic Tooltips
- Story Points
