EXCEL DASHBOARD PROJECT

Insurance Employees Performance Dashboard

A Microsoft Excel dashboard analysing sales performance across four manager teams — revenue share, team leaders, monthly trends and new-joiner activation.

Prepared for Sales Review • Team-wise Performance Analysis

Presented by Asrarul Haque

Objective & Purpose

Project Objective

The objective of this dashboard is to analyse the sales performance of the insurance teams across all four managers, their team leaders and sales executives. It helps leadership identify top performers, revenue share, monthly trends and onboarding gaps.

Who benefits

- **Sales Managers**
  track team & team-leader performance
- **Sales Leadership**
  monitor revenue share, deal size & monthly trends
- **Training / HR**
  plan support for new and low-activity executives

SCOPE

4	Manager Teams
103	Deals Analysed
70+	Days Tracked
100%	Excel-based, no external tools

Why This Dashboard Was Needed

Sales data is spread across daily logs and separate team sheets, which makes review slow. One central dashboard was needed to answer key questions instantly.

1 Track Total Revenue

Monitor combined sales amount and number of deals

2 Compare Manager Teams

See revenue share and rank of each manager

3 Find Top Team Leaders

Identify the leaders who drive the most revenue

4 Analyse Monthly Trend

Spot peak months and month-on-month growth

5 Check Onboarding

Flag new executives with zero NOPs after joining

6 Track NOP Conversion

Measure progress from 1st to 3rd NOP

Dataset & Data Cleaning

Dataset Columns

- Date
- Manager Team
- NOP (deal count)
- Sales Executive
- Team Leader
- Amount / Premium
- Reporting Lead
- Date of Joining
- 1st–3rd NOP Date
- Total NOP

Data Cleaning Steps

- ✓ Replaced names & IDs with anonymous labels
- ✓ Checked blank values in NOP and amounts
- ✓ Standardised leader names (spaces, spelling)
- ✓ Verified totals against the source data
- ✓ Organised daily log by manager team
- ✓ Rebuilt dashboard formulas & re-verified

Excel Features Used

- SUM
- SUMIF / SUMIFS
- COUNT / COUNTIF / COUNTIFS
- INDEX + MATCH
- RANK
- IFERROR
- Array Formulas
- MoM Growth %
- Cell Linking
- Conditional Layouts
- KPI Cards
- Dashboard Formatting

All metrics are calculated with live formulas, so the dashboard updates automatically when new daily records are added to the data sheets. Two dashboard sheets present the results: one for the whole team and one for the Team B deep-dive.

Dashboard KPI Summary

TOTAL REVENUE

109.56

Combined sales amount of all four manager teams

TOTAL DEALS

103

Total closed volume (NOPs)

AVG DEAL VALUE

1.06

Revenue per deal

TEAM B PREMIUM

1,172,000

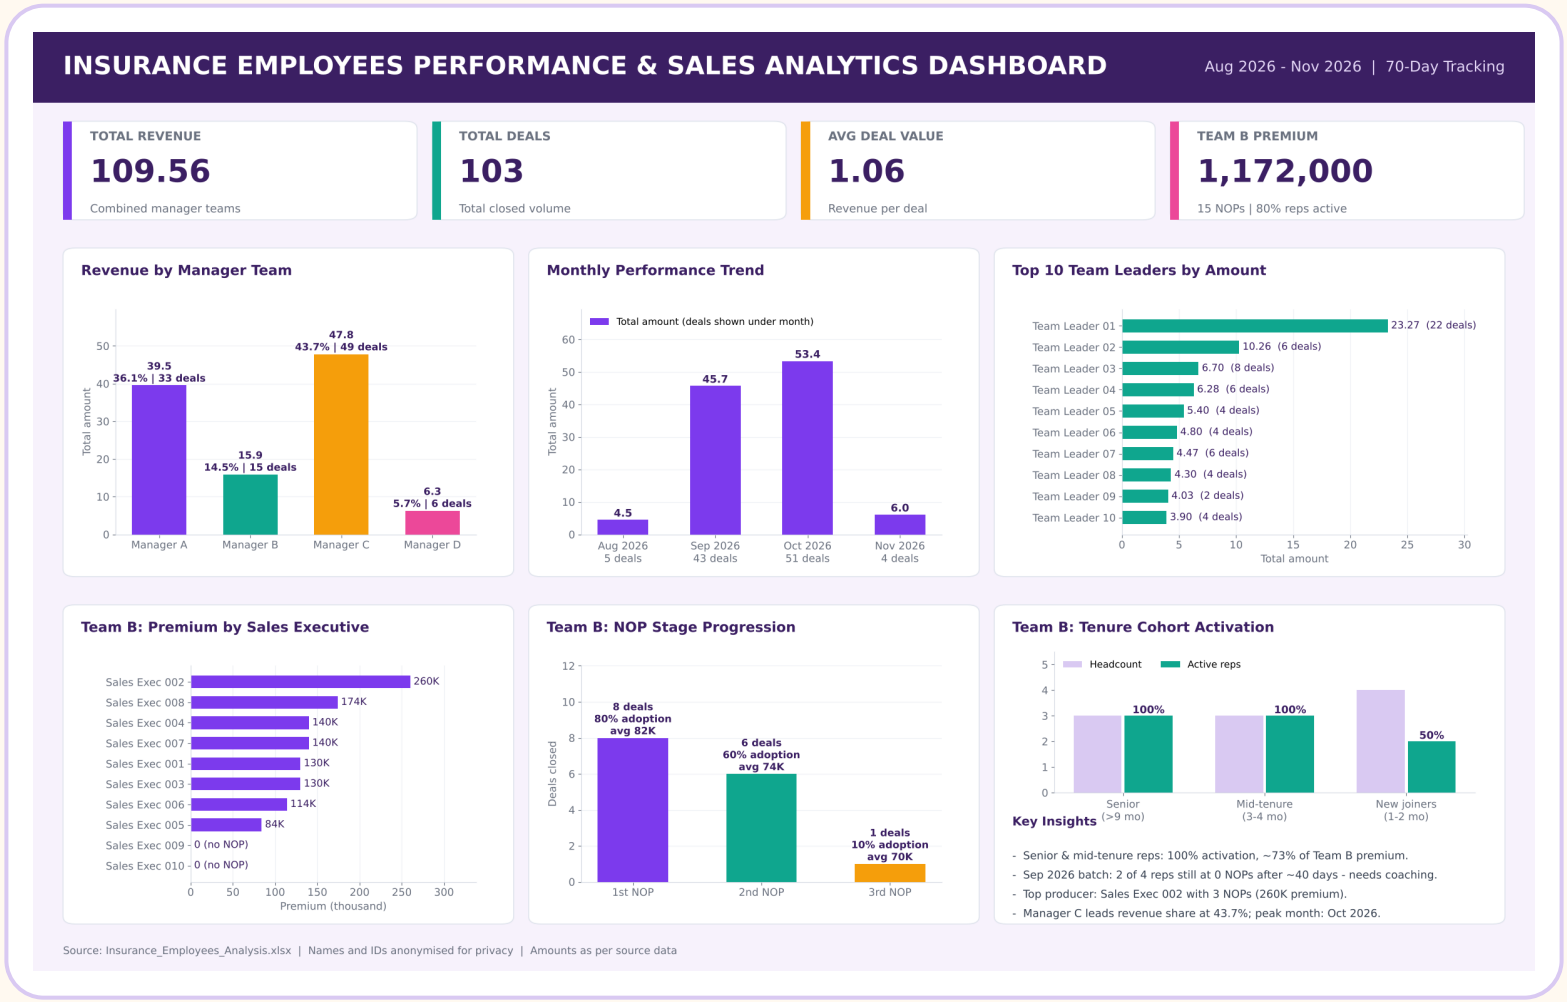

15 NOPs closed by Team B

ACTIVE REP RATIO

80%

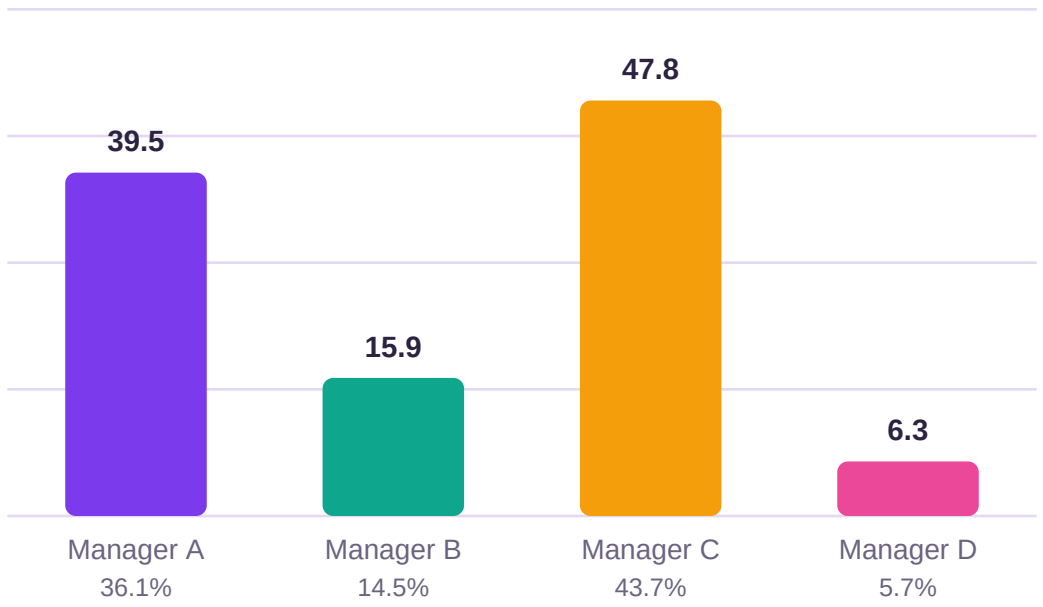

8 of 10 Team B reps contributing

Live Excel Dashboard Snapshot

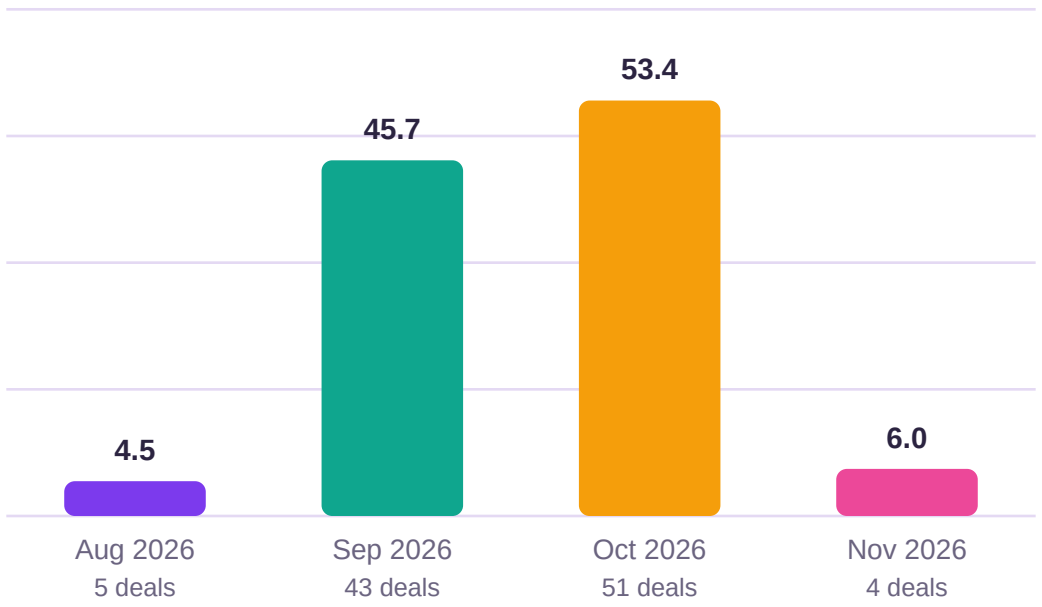

Manager Team & Monthly Performance

Revenue by Manager Team

Monthly Amount

Manager C leads with 43.7% share; Manager A has the highest average deal size (1.20).

October 2026 is the peak month: 53.36 from 51 deals (+16.8% vs September).

Top 10 Team Leaders by Amount

1	Team Leader 01	Manager C • 22 deals	23.27
2	Team Leader 02	Manager A • 6 deals	10.26
3	Team Leader 03	Manager C • 8 deals	6.70
4	Team Leader 04	Manager D • 6 deals	6.28
5	Team Leader 05	Manager A • 4 deals	5.40
6	Team Leader 06	Manager B • 4 deals	4.80
7	Team Leader 07	Manager C / Manager A • 6 deals	4.47
8	Team Leader 08	Manager C • 4 deals	4.30
9	Team Leader 09	Manager A • 2 deals	4.03
10	Team Leader 10	Manager B • 4 deals	3.90

Month-wise Performance

August 2026

4.47
Total amount

5
Deals (NOP)

0.89
Avg deal size

MoM: —

Partial month: tracking starts 29 Aug (3 days).

September 2026

45.68
Total amount

43
Deals (NOP)

1.06
Avg deal size

MoM: +921.9%

First full month of tracking.

October 2026

53.36
Total amount

51
Deals (NOP)

1.05
Avg deal size

MoM: +16.8%

Peak month with the highest amount and deals.

November 2026

6.05
Total amount

4
Deals (NOP)

1.51
Avg deal size

MoM: -88.7%

Partial month: data only up to 7 Nov (4 deals).

Business Insight: September growth over August is not meaningful because August has only 3 tracking days.

NOP Stages & Tenure Cohorts

NOP STAGE PROGRESSION

1st NOP

80%

rep adoption

8 deals

avg 82K premium

2nd NOP

60%

rep adoption

6 deals

avg 74K premium

3rd NOP

10%

rep adoption

1 deals

avg 70K premium

TENURE COHORT ACTIVATION

Senior (>9 months)

3 of 3 active • premium 400,000

100%

Mid-tenure (3–4 months)

3 of 3 active • premium 458,000

100%

New joiners (1–2 months)

2 of 4 active • premium 314,000

50%

What this shows

- Adoption falls from 80% (1st NOP) to 60% (2nd) and only 10% (3rd NOP).
- Senior and mid-tenure reps are 100% active and give about 73% of Team B premium.
- 2 of 4 reps from the September batch still have 0 NOPs after ~39 days.

Key Insights

1. Total revenue is 109.56 from 103 deals, with an average deal value of 1.06.
2. Manager C leads with 43.7% revenue share; Managers C and A together give about 80%.
3. Manager A has the highest average deal size (1.20); Manager C wins on volume.
4. October 2026 is the peak month: 53.36 from 51 deals.
5. Top 13 team leaders produce about 76% of revenue — results are concentrated.
6. Team B: 50% of the September batch have not closed a policy yet.

Business Recommendations

1. Share best practice of the top team leader and top Team B producer across teams
2. Coach Manager C’s team on higher-value policies to raise average deal size
3. Set volume targets for Managers B and D and pair them with top leaders
4. Assign call shadowing and 1-on-1 reviews for zero-NOP executives
5. Track 2nd and 3rd NOP conversion for every rep each month
6. Use this dashboard in weekly and monthly sales review meetings

Challenges Faced & Future Improvements

Challenges Faced

- Anonymising names while keeping formulas working
- Matching team leaders with spelling variations
- Handling partial months (August and November)
- Keeping formula ranges correct as data grows
- Designing clear KPI cards and layouts

Future Improvements

- Pivot Tables, Pivot Charts and Slicers
- Excel Tables so ranges expand automatically
- Power Query automation
- Target vs achievement tracking
- Product-wise and policy-type analysis
- VBA refresh button / Power BI version

Thank You

This Insurance Employees Performance Dashboard uses Excel formulas, KPI cards and structured analysis to help sales leadership identify top performers, compare teams and improve new-joiner activation.
